

Luxe's sanitary coupling mainly comply with the standards of DIN11851/SMS1145/MACON/TRI. Sanitary couplings are with multi-serrated or smooth hose shank and collar, for safety clamps assembly. The female thread nut ensure the DIN/SMS/MACON couplings be easy assembled by a wrench. The Tri-clamp coupling can easily be connected by Triclamp.

Standards

- 1.DIN11851
- 2.Swedish Manufacturing Standard(SMS1145)
- 3.Macon
- 4Tri-clamp coupling

Applications

The sanitary couplings are widely used in the dairy, beverage, food, pharmacy, biotechnology, chemical etc.

Material

Stainless steel 304/316/316L

Seal

- 1.DIN11851: NBR U-shape gasket
- 2.SMS: EPDM gasket
- 3.Tri: EPDM gasket
